Beach

El material de la colección **OUTDOOR** es desarrollado para aplicaciones al aire libre. La vida útil depende de la exposición de luz solar y temperatura. La duración es de al menos 5 años en relación con la decoloración y/o cambio de color en Europa, Asia, Norte y Sur de África y la Polinesia y el este y el sur de Australia, la vida útil mínima estimada es de 3 años. Nosotros no recomendamos las instalaciones en el África central, el noroeste de Australia y las zonas del desierto. Para obtener información actualizada no dude en contactar con www.farafe.com
